CenCal Health Physician Administered Drug (PAD) List 2024

CenCal Health defines the utilization management of PADs on the medical benefit as Medical Pharmacy Management. Medical Pharmacy Management includes adoption of clinical guideline criteria, PAD authorization request review, and preferred PAD product programs. Detailed information regarding the Medical Pharmacy Management Program can be found on [CenCal Health's Medical Pharmacy webpage](#).

Physician Administered Drugs (PADs) through CenCal Health's Medical Pharmacy Program include infused, injectable drugs provided or administered to a member that is billed by a provider on a medical claim by a Procedure Code (i.e. J-Code). These billable providers include, but are not limited to, physician offices, clinics, and hospitals.

The CenCal Health PAD List allows providers to look at specific PAD codes that require prior authorization.

How to Use the CenCal Health PAD List

The PAD List is comprised of a list of authorization required PAD HCPCS Codes, corresponding code description, and drug name. Below is a description of the fields:

- Status Field
 - TAR Required = Product code required prior authorization
- Notes Field
 - Preferred Product Program: CenCal Health prefers select biosimilars over the reference products and all preferred and non-preferred products are documented in this section

For additional information on codes not displayed on this list please visit the **CenCal Health procedure code lookup** tool at <https://procedureauth.cencalhealth.org/>. The search tool can be used to determine whether a procedure code requires a prior authorization. The tool also provides additional information regarding the procedure code age, service, frequency, and diagnosis code limits/requirements upon claim submission. This additional information is displayed as billable units based on the procedure code description.

Additional Pharmacy Services Benefit Information

Medi-Cal Rx Pharmacy Benefit

All administrative services related to Medi-Cal pharmacy benefits billed on a pharmacy claim from the existing Medi-Cal Fee-for-Service (FFS) or Managed Care Plan (MCP) intermediaries have transitioned to Medi-Cal Rx. For a list of covered medications under the Medi-Cal Rx benefit please reference the Medi-Cal Rx [Contract Drugs List](#). Medi-Cal Rx does not include pharmacy services billed as a medical (professional) or institutional claim.

For further information on the Medi-Cal Rx benefit please visit the [Medi-Cal Rx website](#) or call Medi-Cal Rx at (800) 977-2273.

Home Infusion Benefit

Medications that are administered through the home infusion benefit billed on a pharmacy claim are covered under Medi-Cal Rx. All medical supplies and nursing support for the administration of a home infusion product is the responsibility of the CenCal Health medical benefit and can be billed through the CenCal Health claims department. Please use the CenCal Health procedure code lookup tool at <https://procedureauth.cencalhealth.org/> for guidance on which CPT codes require a treatment authorization request (TAR).
