CenCal CareConnect Medicare Part B Prior Authorization Drug List

The following list of outpatient medications covered under Medicare Part B (i.e., drugs that are delivered in the physician's office, clinic, outpatient, or home setting) require preauthorization prior to being provided or administered.

This list does not include drugs that process under the Medicare Part D pharmacy benefit, such as self-administered drugs or oral medications. Coverage will be provided for Part B medical drugs when it is determined to be medically necessary, in accordance with Centers for Medicare & Medicaid Services (CMS) guidelines (available at: http://www.cms.gov/medicare-coverage-database).

Coverage of these outpatient medications is based on existing National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs), and other relevant sources.

Adherence to these policies is required when they exist. The table below lists drug names, HCPCS codes, and applicable Medicare policies. For drugs, which do not have an applicable NCD, LCD, or LCA, there may be a clinical resource.

In the absence of Medicare coverage guidance (NCDs, LCDs, etc.), CMS allows Medicare Advantage plans to implement their criteria for coverage with the guidance and review of a Drug Committee. CenCal CareConnect utilizes MCG clinical guidelines and our Medicare Part B Medical Drug Clinical Criteria in the absence of Medicare coverage guidance.

Please refer to the published clinical policies on the CenCal CareConnect Pharmacy webpage.

This list is subject to change. Please review this list periodically for updates. CenCal CareConnect reserves the right to revise, update, and/or add/remove drugs as new drugs are FDA-approved and become available for use.

CenCal CareConnect Medicare Part B Prior Authorization Drug List

The following list of outpatient medications covered under Medicare Part B (i.e., drugs that are delivered in the physician's office, clinic, outpatient, or home setting) require preauthorization prior to being provided or administered.

This list does not include drugs that process under the Medicare Part D pharmacy benefit, such as self-administered drugs or oral medications. Coverage will be provided for Part B medical drugs when it is determined to be medically necessary, in accordance with Centers for Medicare & Medicaid Services (CMS) guidelines (available at: http://www.cms.gov/medicare-coverage-database).

Coverage of these outpatient medications is based on existing National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs), and other relevant sources.

Adherence to these policies is required when they exist. The table below lists drug names, HCPCS codes, and applicable Medicare policies. For drugs, which do not have an applicable NCD, LCD, or LCA, there may be a clinical resource.

In the absence of Medicare coverage guidance (NCDs, LCDs, etc.), CMS allows Medicare Advantage plans to implement their criteria for coverage with the guidance and review of a Drug Committee.
